Subject: RE: Cheltenham Regency Hotel Variation

Dear Colin,

Further to my earlier representation, I understand you have received a number of objections to the license on the grounds of noise and disturbance.

This department has file records dating back 10 years and during this time we have not been in receipt of any complaints of noise from licensable activities from the premises. This is a commendable record bearing in mind the large number of weddings and functions with regulated entertainment that have taken place at the hotel over the years.

In our opinion, providing the conditions detailed below are attached, we see no reason why, on noise grounds, that the license should not be granted as requested. I have confidence that the current management of the hotel will be able to control noise levels to a reasonable level, however if for any reason residents are disturbed by noise from the hotel, there is always the opportunity to review the license at a future date.

Should you require any further information, or wish me to attend the hearing, please do not hesitate to get in touch.

Kind Regards

Kathryn Hill

Dear Colin,
Please find below recommended conditions for the Cheltenham Regency License application variation as agreed with the applicant. We have no objection to the license being granted as requested, following the 2 conditions below are attached.
Regards

Dear Kathryn,

Thank-you for your e-mail.

I am happy to confirm agreement to the conditions as in your e-mail, both of which we already adhere to anyway.

In addition from now on we will only be using our own dedicated House DJ anyway, thereby having far more control over volume etc.

Thank-you for your assistance,

Yours sincerely,

Dorian Charlton

Subject: Cheltenham Regency Hotel Variation

Hi Dorian,
Following our earlier telephone conversation, Thanks for you're your application to vary the Premise License for Cheltenham Regency Hotel to which the Environmental Protection Dept has been formally consulted on. The Environmental Protection Dept has no objection to the variation providing the following conditions are agreed:

1. All external doors and windows must be kept closed, other than for access and egress, in all rooms when events involving amplified music or speech are taking place.
2. Prominent, clear notices shall be displayed at all exits requesting that customers respect the needs of local residents and leave the premises and the area quietly.

If you could let me know if you are in agreement with the conditions being attached to any variation granted.
I look forward to hearing from you.
Kind Regards

Kathryn Hill
