All Aboard? - Local Government Governance Review 2015

Grant Thornton

Our fourth annual review of local government governance is available at <http://www.grant-thornton.co.uk/en/Publications/2015/Local-Government-Governance-review-2015-All-aboard1/>.

We note that the challenges faced by local authorities are intensifying as austerity and funding reductions combine with demographic pressures and technological changes to create a potential threat to the long-term sustainability to some organisations. Maintaining effective governance is becoming ever more complex and increasingly important.

Against this background we have focused this year's review on three key areas:

Governance of the organisation – the main area of concern highlighted in this year's governance survey is the level of dissatisfaction with the scrutiny process.

Governance in working with others – there is an urgent need for scrutiny to exercise good governance over the complex array of partnerships in which local authorities are now involved. Boundary issues notwithstanding, by 'shining a light' on contracted-out activities and joint operations or ventures, scrutiny committees can bring a new level of transparency and accountability to these areas.

Governance of stakeholder relations – despite the work that a number of local authorities are doing with the public on 'co-production', almost a third of respondents to our survey did not think their organisation actively involves service users in designing the future scope and delivery of its services.

We conclude that local authorities need to ensure that their core objectives and values are fulfilled through many other agencies. This implies a greater role for scrutiny and a need to make sure local public sector bodies' arrangements are as transparent as possible for stakeholders.

Hard copies of our report have been provided to the Chief Executive and S151 officer and are available from your Engagement Lead or Audit Manager.

Independent Commission into Local Government Finance

Local government issues

The Independent Commission on Local Government Finance was established in 2014 to examine the system of funding local government in England and bring forward recommendations on how it can be reformed to improve funding for local services and promote sustainable economic growth. It published its final report, [Financing English Devolution](#), on 18 February 2015.

The report notes that the core of the Commission's proposition is the devolution of powers, funding and taxes to sub-national entities over a 10 year period. They estimate that this could lead to over £200 billion in public expenditure being controlled at a sub-national level. The expectation is that councils and their partners would work collaboratively to manage differences in capacity and resources. They see local areas becoming self sufficient.

The Commission advocates a 'variable speed' approach to reform with 'Pioneers' able to and wishing to reform at a faster pace. Reforms advocated for all authorities include:

- An independent review of the functions and sustainability of local government in advance of the next spending review
- Freedom to set council tax and council tax discounts and full retention of business rates and business rates growth
- Multi-year financial settlements
- The ability to raise additional revenue through the relaxation of the rules on fees and charges

'Pioneer' authorities would also implement:

- Single placed-based budgets for all public services
- Management of funding equalisation across a sub-national area
- Further council tax reforms including the ability to vary council tax bands and undertake revaluations
- Newly assigned and new taxes such as stamp duty, airport taxes and tourism taxes
- The establishment of Local Public Accounts Committees to oversee value for money across the placed-base budget.

Issues for Consideration

Have Members been briefed by your Chief Finance Officer on the key findings of the Independent Commission's final report?

Inspection into the governance of Rotherham Council

Local government issues

On 4 February 2015 the Secretary of State for Communities and Local Government, Eric Pickles announced the publication of [Louise Casey's report](#) . Her inspection of the exercise of functions on governance, children and young people and taxi and private hire licensing states:

"Rotherham Metropolitan Borough Council is not fit for purpose. It is failing in its legal obligation to secure continuous improvement in the way in which it exercises its functions. In particular, it is failing in its duties to protect vulnerable children and young people from harm."

It summarises the following serious failings:

- a council in denial about serious and on-going safeguarding failures
- an archaic culture of sexism, bullying and discomfort around race
- failure to address past weaknesses, in particular in Children's Social Care
- weak and ineffective arrangements for taxi licensing which leave the public at risk
- ineffective leadership and management, including political leadership
- no shared vision, a partial management team and ineffective liaisons with partners
- culture of covering up uncomfortable truths, silencing whistle-blowers and
- paying off staff rather than dealing with difficult issues

The report has had widespread press coverage and in a statement in the House of Commons the Secretary of State confirmed that he is considering exercising his powers of intervention in relation to Rotherham.

Challenge question

Have members been briefed by your Chief Finance Officer on:

- the headline messages from the inspection of aspects of Rotherham MBC's governance arrangements?
- whether there are any lessons to be learned by the authority and actions that need to be taken to strengthen its overall governance arrangements in response to the risk of child sexual abuse, including the robustness of member oversight, challenge and scrutiny?

Provision for Business Rates Appeals

Accounting and audit issues

Unlodged appeals

The Chancellor's Autumn Statement included a change to the rules relating to business rates appeals. As a result we do not expect to see any provisions for unlodged appeals in local authorities' 2014/15 accounts, although we will expect this to be re-considered for 2015/16 accounts.

The change restricts the backdating of Valuation Office Agency (VOA) alterations to rateable values. Only VOA alterations made before 1 April 2016 and ratepayers' appeals made before 1 April 2015 can now be backdated to the period between 1 April 2010 and 1 April 2015. The aim is to put authorities in the position as if the revaluation had been done in 2015 as initially intended, before the deadline was extended to 2017.

There may be some fluctuations in provisions at 31 March 2015 as unlodged appeals provisions are released. However, there may also be increased numbers of appeals lodged prior to 31 March 2015. These appeals may be more speculative in nature and therefore authorities may need to consider whether prior year assumptions remain valid in estimating their provisions.

Utilisation of provision

As part of the provisions disclosures in the accounts, local authorities need to disclose additional provisions made in the year, the amounts used (i.e. incurred and charged against the provision) during the year and unused amounts reversed during the year.

We understand that the software used for business rates may not provide values for the amounts charged against the provision during the year and that there is no simple software solution for this for 2014/15. Local authorities will need to consider available information and make an estimate of the amount for appeals settled in the year.

Challenge questions

- Has your Head of Finance reassessed the methodology for making the business rates provision?
- Has your Head of Finance got arrangements in place for the estimation of appeals to be charged against the provision?
