1.0 INTRODUCTION/BACKGROUND

1.1 The corporate risk register was originally reported through the performance management framework which is reviewed by Overview and Scrutiny Committee. The Audit Committee has within its Terms of Reference the responsibility to monitor the effective development and operation of risk management, hence why the register is now presented to the Audit Committee.

2.0 CORPORATE RISK REGISTER

2.1 The risk register was re-introduced in 2014 and reported to Overview and Scrutiny Committee on 9 September 2014. The register was first reported to Audit Committee on 10 December 2014. The Corporate Governance Group oversees the Council's overall risk management arrangements. The register is a corporate document and has been endorsed by the corporate management team. The register can be found in Appendix 1.

2.2 The register is a live document and as such, risk descriptions may change in time, new risks emerge and current risks mitigated. Any changes to the register will be notified to the Audit Committee, a report will be brought to each committee. Changes to the register since the last update are shown in bold.

2.3 Corporate related risks are formally discussed at monthly management team meetings with operational related risks forming part of normal business dialogue within service areas. The risk register is a high level summary document, risks relating to project type activities such as the Joint Core Strategy and new leisure centre are supported by more detailed project risk registers.

2.4 The risk management framework including the risk management strategy and risk register will be formally reviewed during the course of 2016/17. This will be supported with training for relevant officers and Members. With regards to reviewing the risk management strategy this has been briefly discussed at Transform Working Group. There are indicators from the Transform Working Group of a shift in the risk appetite of the Council, for example through the exploration of commercial opportunities. The new strategy should illicit this.
