

LOCAL AUTHORITY SERIOUS AND ORGANISED CRIME CHECKLIST

The Threat

Local Authority (LA) procurement is at risk of infiltration from serious and organised crime and organised crime groups could be benefitting from public sector contracts. In 2013 it was estimated that £2.1 billion of fraud was perpetrated against local government ([National Fraud Authority Annual Fraud Indicator 2013](#)).

Serious and organised crime is a threat to our national security and the Government's [Serious and Organised Crime Strategy](#) published in 2013 reported that it costs the UK more than £24 billion a year. Organised crime includes drug trafficking, human trafficking, child sexual exploitation, high value fraud and cyber-crime. Organised crime groups may seek to benefit from public services in different ways, including to raise money through fraudulent activity and to use businesses / services used by LAs to launder criminal proceeds. In this way public money can be lost to LAs and can ultimately fund other illegal activity.

Responding to the Threat

Assessing the risk from serious and organised crime and corruption is essential in allowing you to identify areas of concern within your business, potential vulnerabilities and to take action to strengthen processes and structures that safeguard public money.

How to use this Serious and Organised Crime Checklist

The checklist is intended to be used as an internal, self-assessment tool by the Chief Executive and the senior management team to provide a high level overview of the serious and organised crime risks that relate to your business. It can be carried out quickly with relevant heads of departments to make a high level, but balanced assessment of your exposure to the risks and in response develop an improvement plan for managing that risk, as well as capturing areas of good practice to replicate more widely across the LA and with neighbouring LAs.
