| FOI Monitoring 2017/18 | Consideration should be given to reviewing the functionality of the FOI system. | L        | Web Application and Digital Developer in collaboration with the Corporate Services Manager | Mar-18.<br>Sep-18                               | Nov-18                          |                                     | Previously, the council did not have in place a robust system for responding to and monitoring FOI requests. An in-house digital solution was implemented that provides an 'end to end' process including management reporting. The system was implemented two years ago. An early audit confirmed the integrity of the system and recommended it would be prudent to review once fully established. A review has been carried out by corporate services and concludes it is still fit for purpose. An exercise to mitigate the number of FOI received is underway with service areas. | 18-19 q3                    |
