

Tewkesbury Borough Council

Annual Infrastructure Funding Statement

For

Community Infrastructure Levy and
Section 106 Contributions

Reporting Period:

From 01 April 2020 to 31 March 2021

Introduction

Infrastructure Funding Statements are a legal requirement which Councils, such as Tewkesbury, who charge Community Infrastructure Levy (CIL) and/or secure developer contributions by way of Section 106 (S106) agreement are required to produce annually.

CIL and S106 (collectively known as 'planning obligations' or 'developer contributions') income is used to help mitigate the impact on, and fund the provision of, infrastructure required as a result of development.

This is Tewkesbury Borough Council's annual report for the year 1 April 2020 to 31 March 2021.

The infrastructure funding statement should, as a minimum, include the information set out in Regulation 121A, Schedule 2, Section 1 to the Community Infrastructure Levy Regulations 2010 (as inserted by the 2019 Amendment Regulations).

Schedule 2 sets out the requirements in three sections: The CIL Report; the Section 106 Report; and the Infrastructure List.

The CIL Report

This sets out the income and expenditure relating to the CIL for the reported year.

The Section 106 Report

This sets out progress on completing agreements, the provision of infrastructure and the collecting and spending of S106 funding over the reported year.

In this statement the questions posed by Schedule 2 are highlighted using blue text.

The Infrastructure List

The Infrastructure List, adopted by all three JCS partner authorities in December 2020, has been updated alongside the preparation of this Infrastructure Funding Statement and is included as the third chapter to this report.

Infrastructure Funding Statement - Community Infrastructure Levy (CIL Report)

Tewkesbury Borough Council's Community Infrastructure Levy (CIL) charges took effect on planning permissions granted on or after the 1 January 2019 and the Council is both a CIL Charging and a CIL Collecting Authority.

Joint Core Strategy (JCS) Authorities of Gloucester City Council, Tewkesbury Borough Council and Cheltenham Borough Council Community Infrastructure Levy (CIL) **Infrastructure List** – Updated December 2021

121A. — Annual infrastructure funding statements

(1) Subject to paragraph (2), no later than 31st December in each calendar year a contribution receiving authority must publish a document ("the annual infrastructure funding statement") which comprises the following—

(a) a statement of the infrastructure projects or types of infrastructure which the charging authority intends will be, or may be, wholly or partly funded by CIL (other than CIL to which regulation 59E or 59F applies) ("the infrastructure list");

This document is produced in accordance with the Community Infrastructure Levy (CIL) Regulations (2010) (as amended). It specifies the projects and/or types of infrastructure which the JCS Authorities intend will be, or **'may'** be, **'wholly or partly'** funded by CIL to support the delivery of the Tewkesbury, Gloucester and Tewkesbury Joint Core Strategy (JCS) 2011 to 2031 and the adopted and emerging District Level Plans which (together with the Minerals and Waste Local Plan and made Neighbourhood Development Plans) form the Local Plan(s) for the three Authorities.

The removal of the Regulation 123 'pooling restriction', by the 2019 Amendment Regulation, was intended to make it easier to deliver major infrastructure projectsⁱ. It allows local authorities to combine CIL and 106 revenues towards the same infrastructure project or item.

The inclusion of a project within the Infrastructure List does not represent a commitment that the Councils will necessarily spend CIL monies on that item and for clarity, there is no priority implied by the order in which infrastructure projects/types appear in the List.

The Infrastructure List was first approved for publication by the three JCS partner authorities in December 2020 with projects, identified as 'critical', selected from those in the JCS Infrastructure Delivery Plan (IDP) 2014 as updated in the 2017 Addendum and the most up to date information from the annual review.

As set out at CIL Regulation 122, planning obligations such as a section 106 agreements, will continue to be sought alongside the CIL to secure all infrastructure which is "necessary to make the development acceptable in planning terms, "is directly related to the development and is "fairly and reasonably related in scale and kind to the development".

The JCS Councils will continue to review this list and provide updates on at least an annual basis, alongside the preparation of their Infrastructure Funding Statement(s). Updates from this year's review have been added in **blue** text and where a scheme, through consultation with GCC Highways (October 2021), is no longer considered to require CIL funding their entry row is shaded in **grey**. Of the 25 'projects' identified in the Infrastructure List adopted in December 2020, 17 projects remain that 'may', 'wholly or partly' need CIL funding.
