

CONSULTATION

Mandatory CCTV in licensed vehicles

Introduction

The Department for Transport (DfT) published its Statutory Taxi and Private Hire Vehicle Standards in July 2020 with a strong focus to protect all passengers and users of taxis and private hire transport services.

The statutory guidance makes it clear that the Government expects the recommendations contained within it to be implemented unless there is a compelling local reason not to. Furthermore, it is noted that the statutory standards document sets out a framework of policies that, under section 177(4), licensing authorities “must have regard” to when exercising their licensing and safeguarding functions.

The licensing authorities in Gloucestershire are seeking views on the statutory guidance’s requirements with regards to CCTV in licensed vehicles.

This consultation follows previous work by the licensing authorities in Gloucestershire to adopt common licensing standards for taxi and private hire drivers, vehicle proprietors and operators.

Responding to the consultation

The consultation will be open **for 8 weeks from 5 September 2022 to 30 October 2022**.

CCTV in licensed vehicles

The DfT's Statutory Taxi and Private Hire Vehicle Standards states that:

"All licensing authorities should consult to identify if there are local circumstances which indicate that the installation of CCTV in vehicles would have either a positive or an adverse net effect on the safety of taxi and private hire vehicle users, including children or vulnerable adults, and taking into account potential privacy issues."

The DfT's view is that CCTV can provide additional deterrence to prevent the potential risk to public safety when passengers travel in taxis and private hire vehicles and has investigative value when it does. Its view is that *"The use of CCTV can provide a safer environment for the benefit of taxi/private hire vehicle passengers and drivers."*

To this end, the licensing authorities in Gloucestershire are conducting an initial consultation to identify if there are local circumstances which indicate that the installation of CCTV in vehicles would have either a positive or an adverse net effect on the safety of taxi and private hire vehicle users, including children or vulnerable adults. In addition, the consultation is seeking views on whether it would be proportionate for the the installation of CCTV to be made a mandatory condition of a vehicle licence. Any decision to make it mandatory condition will take account of the benefits to public safety as well as any adverse effects including potential privacy concerns and costs to the licensed vehicle holder.

Consultation Questions

Please complete the consultation survey if you want to respond to this consultation.

Next Steps

We will analyse the consultation feedback to decide if there is local evidence to support a mandatory requirement for CCTV in licensed vehicles.

Where we consider there to be such a requirement, we will undertake further consultation and engagement with the licensed trade and key stakeholders to develop a CCTV policy and specifications for CCTV systems.

We will continue to communicate with the licensed trade on the outcome of this consultation and next steps.
