The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the Council or all weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No.OC307742. Registered office: 30 Finsbury Square, London, EC2A 1AG. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Authority. Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. Services are delivered by the member firms. GTIL and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions.

## **Key matters**

### National context

For the general population, rising inflation rates, in particular for critical commodities such as energy, food and fuel, is pushing many households into poverty and financial hardship, including those in employment. At a national government level, recent political changes have seen an emphasis on controls on spending, which in turn is placing pressure on public services to manage within limited budgets.

Local Government funding continues to be stretched with increasing cost pressures due to the cost of living crisis, including higher energy costs, increasing pay demands, higher agency costs and increases in supplies and services. Local authority front-line services play a vital role in protecting residents from rising costs; preventing the most vulnerable from falling into destitution and helping to build households long-term financial resilience. At a local level, councils are also essential in driving strong and inclusive local economies, through their economic development functions and measures like increasing the supply of affordable housing, integrating skills and employment provision, and prioritising vulnerable households to benefit from energy saving initiatives. Access to these services remains a key priority across the country, but there are also pressures on the quality of services. These could include further unplanned reductions to services and the cancellation or delays to major construction projects such as new roads, amenities and infrastructure upgrades to schools, as well as pothole filling.

Our recent value for money work has highlighted a number of governance and financial stability issues at a national level, which is a further indication of the mounting pressure on audited bodies to keep delivering services, whilst also managing transformation and making savings at the same time.

In planning our audit, we will take account of this context in designing a local audit programme which is tailored to your risks and circumstances.

### **Audit Reporting Delays**

In a report published in January 2023 the NAO have highlighted that since 2017-18 there has been a significant decline in the number of local government body accounts including an audit opinion published by the deadlines set by government. The NAO outline a number of reasons for this and proposed actions. In our view, it is critical to early sign off that draft local authority accounts are prepared to a high standard and supported by strong working papers.

## **Key matters**

### Our Responses

- As a firm, we are absolutely committed to audit quality and financial reporting in the local government sector. Our proposed work and fee, as set out further in our Audit Plan, has been agreed with the Executive Director of Resources.
- We will consider your arrangements for managing and reporting your financial resources as part of our audit in completing our Value for Money work.
- Our value for money work will also consider your arrangements relating to governance and improving economy, efficiency and effectiveness.
- Our prior year Audit Findings Report identified two actions. We will consider progress against these during the final audit period in July to September 2023, and communicate our findings to you in our Audit Findings Report.
- We will continue to provide you and your Audit and Governance Committee with sector updates providing our insight on issues from a range of sources and other sector commentators via our Audit and Governance Committee updates.
- We hold annual financial reporting workshops for our audited bodies to access the latest technical guidance and interpretation , discuss issues with our experts and create networking links with other audited bodies to support consistent and accurate financial reporting across the sector.
- We have identified an increased incentive and opportunity for organisations in the public sector to manipulate their financial statements due to increasing financial pressures. We have identified a significant risk in regards to management override of control refer to page 8.

### Introduction and headlines

### **Purpose**

This document provides an overview of the planned scope and timing of the statutory audit of Tewkesbury Borough Council ('the Council') for those charged with governance.

### Respective responsibilities

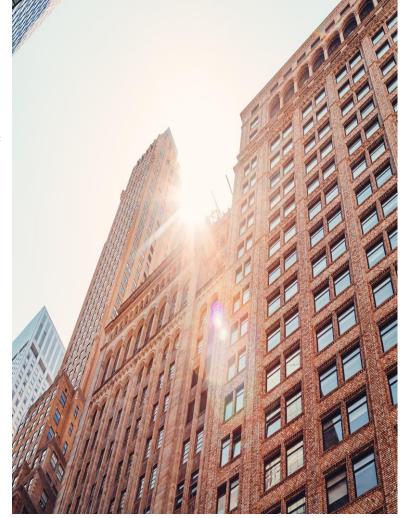

The National Audit Office ('the NAO') has issued a document entitled Code of Audit Practice ('the Code'). This summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities are also set out in the Terms of Appointment and Statement of Responsibilities issued by Public Sector Audit Appointments (PSAA), the body responsible for appointing us as auditor of Tewkesbury Borough Council. We draw your attention to both of these documents.

### Scope of our audit

The scope of our audit is set in accordance with the Code and International Standards on Auditing (ISAs) (UK). We are responsible for forming and expressing an opinion on the Council's financial statements that have been prepared by management with the oversight of those charged with governance (the Audit and Governance committee); and we consider whether there are sufficient arrangements in place at the Council for securing economy, efficiency and effectiveness in your use of resources. Value for money relates to ensuring that resources are used efficiently in order to maximise the outcomes that can be achieved.

The audit of the financial statements does not relieve management or the Audit and Governance Committee of your responsibilities. It is the responsibility of the Council to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We have considered how the Council is fulfilling these responsibilities.

Our audit approach is based on a thorough understanding of the Council's business and is risk based.

### Introduction and headlines

### Significant risks

Those risks requiring special audit consideration and procedures to address the likelihood of a material financial statement error have been identified as:

- Management override of controls
- Valuation of the defined benefit net liability
- Valuation of land and buildings assets (including investment property)

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings (ISA 260) Report.

### Materiality

We have determined planning materiality to be £798k (PY £835k) for the Council, which equates to 2% of your prior year gross operating costs. We are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. As part of our risk assessment, we have considered the impact of unadjusted prior period errors. As there was only one unadjusted error for £150k for 2021-22, we have not considered there to be any impact on our materiality determination.

Clearly trivial has been set at £40k (PY £41k).

### Value for Money arrangements

Our risk assessment regarding your arrangements to secure value for money has yet to be completed, as our work on the Auditor's Annual Report (AAR) for 2021-22 is still ongoing. We intend to produce a combined report covering the 2021-22 and 2022-23 financial years, which will incorporate our identified risks of significant weakness in 2021-22 as well as a refreshed risk assessment for 2022-23.

### **New Auditing Standards**

There are two auditing standards which have been significantly updated this year. These are ISA 315 (Identifying and assessing the risks of material misstatement) and ISA 240 (the auditor's responsibilities relating to fraud in an audit of financial statements). We provide more detail on the work required later in this plan.

### **Audit logistics**

Our interim visit took place in February and March 2023 and our final visit will take place in July to September 2023. Our key deliverables are this Audit Plan, our Audit Findings Report and Auditor's Annual Report.

Our proposed fee for the audit will be £62,815 (PY: £64,065) for the Council, subject to the Council delivering a good set of financial statements and working papers.

We have complied with the Financial Reporting Council's Ethical Standard (revised 2019) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements.

# Significant risks identified

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
ISA240 revenue recognition risk	Under ISA (UK) 240 there is a rebuttable presumed risk that revenue may be misstated due to the improper recognition of revenue.	Having considered the risk factors set out in ISA240 and the nature of the revenue streams at the Authority, we have determined that the risk of fraud arising from revenue recognition can be rebutted, because:
		<ul> <li>there is little incentive to manipulate revenue recognition;</li> </ul>
		<ul> <li>opportunities to manipulate revenue recognition are very limited; and</li> </ul>
		<ul> <li>the culture and ethical frameworks of local authorities, including the Authority, mean that all forms of fraud are seen as unacceptable.</li> </ul>
		We therefore do not consider this to be a significant risk for Tewkesbury Borough Council.
Risk of fraud related to	the public sector, auditors must also consider the risk that material misstatements due to fraudulent financial reporting may arise from the manipulation of expenditure recognition (for instance by deferring expenditure to a later period)  • there is very little incentive for management to mistand and • the Authority has clear and transparent reporting of financial position to those charged with governance.  We therefore do not consider this to be a significant risk expenditure is well controlled and the Authority has environment;	We have rebutted this presumed risk for the Authority because:
expenditure recognition PAF Practice Note 10		<ul> <li>expenditure is well controlled and the Authority has a strong control environment;</li> </ul>
		<ul> <li>there is very little incentive for management to mis-represent expenditure; and</li> </ul>
		• the Authority has clear and transparent reporting of its financial plans and financial position to those charged with governance.
		We therefore do not consider this to be a significant risk for the Authority. However, our testing will cover the legitimacy of year end creditors and accruals.

'Significant risks often relate to significant non-routine transactions and judgmental matters. Non-routine transactions are transactions that are unusual, due to either size or nature, and that therefore occur infrequently. Judgmental matters may include the development of accounting estimates for which there is significant measurement uncertainty.' (ISA (UK) 315)

# Significant risks identified

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
Management over-ride of controls	Under ISA (UK) 240 there is a non-rebuttable presumed risk that the risk of management over-ride of controls is present in all entities.	We will:  • evaluate the design effectiveness of management controls over journals;  • analyse the journals listing and determine the criteria for selecting high risk
		unusual journals;
		<ul> <li>test unusual journals recorded during the year and after the draft accounts stage for appropriateness and corroboration;</li> </ul>
		<ul> <li>gain an understanding of the accounting estimates and critical judgements applied made by management and consider their reasonableness with regard to corroborative evidence; and</li> </ul>
		<ul> <li>evaluate the rationale for any changes in accounting policies, estimates or significant unusual transactions.</li> </ul>
Valuation of land and buildings assets (including investment property)	The Authority revalues its land and buildings on an annual basis to ensure that the carrying value is not materially different from the current value or fair value (for surplus assets and investment properties) at the financial statements date. This valuation	We will:
		<ul> <li>evaluate management's processes and assumptions for the calculation of the estimate, the instructions issued to the valuation experts and the scope of their work</li> </ul>

annual basis to ensure that the carrying value is not materially different from the current value or fair value (for surplus assets and investment properties) at the financial statements date. This valuation represents a significant financial statements estimate by management due to the size of the balances involved and the sensitivity of this estimate to changes in key assumptions.

Management have engaged the services of a valuer to estimate the current value as at 31 March 2023.

We have therefore identified the valuation of the closing balance of land and buildings and investment property as a significant risk.

- evaluate the competence, capabilities and objectivity of the valuation expert
- write to the valuer to confirm the basis on which the valuations were carried out
- challenge the information and assumptions used by the valuer to assess completeness and consistency with our understanding.
- test, on a sample basis, revaluations made during the year to ensure they have been input correctly into the Authority's asset register
- evaluate the assumptions made by management for any assets not revalued during the year and how management has satisfied themselves that these are not materially different to current value.

Management should expect engagement teams to challenge management in areas that are complex, significant or highly judgmental which may be the case for accounting estimates and similar areas. Management should also expect to provide to engagement teams with sufficient evidence to support their judgments and the approach they have adopted for key accounting policies referenced to accounting standards or changes thereto.

Where estimates are used in the preparation of the financial statements management should expect teams to challenge management's assumptions and request evidence to support those assumptions.

# Significant risks identified

#### Risk

#### Reason for risk identification

### Valuation of the pension fund net liability

The Authority's pension fund net liability, as reflected in its balance We will: sheet as the net defined benefit liability, represents a significant estimate in the financial statements.

The pension fund net liability is considered a significant estimate due to the size of the numbers involved and the sensitivity of the estimate to changes in key assumptions.

The methods applied in the calculation of the IAS 19 estimates are routine and commonly applied by all actuarial firms in line with the requirements set out in the Code of practice for local government accounting (the applicable financial reporting framework). We have therefore concluded that there is not a significant risk of material misstatement in the IAS 19 estimate due to the methods and models used in their calculation.

The source data used by the actuaries to produce the IAS 19 estimates is provided by administering authorities and employers. We do not consider this to be a significant risk as this is easily verifiable.

The actuarial assumptions used are the responsibility of the entity but should be set on the advice given by the actuary. A small change in the key assumptions (discount rate, inflation rate, salary increase and life expectancy) can have a significant impact on the estimated IAS 19 liability, in particular the discount rate. We have therefore concluded that there is a significant risk of material misstatement in the IAS 19 estimate due to the assumptions used in their calculation. With regard to these assumptions we have therefore identified valuation of the Authority's pension fund net liability as a significant risk.

#### Key aspects of our proposed response to the risk

- update our understanding of the processes and controls put in place by management to ensure that the Authority's pension fund net liability is not materially misstated and evaluate the design of the associated controls;
- evaluate the instructions issued by management to their management expert (an actuary) for this estimate and the scope of the actuary's work;
- assess the competence, capabilities and objectivity of the actuary who carried out the Authority's pension fund valuation;
- assess the accuracy and completeness of the information provided by the Authority to the actuary to estimate the liability;
- test the consistency of the pension fund asset and liability and disclosures in the notes to the core financial statements with the actuarial report from the actuary;
- undertake procedures to confirm the reasonableness of the actuarial assumptions made by reviewing the report of the consulting actuary (as auditor's expert) and performing any additional procedures suggested within the report; and
- obtain assurances from the auditor of Gloucestershire Pension Fund as to the controls surrounding the validity and accuracy of membership data; contributions data and benefits data sent to the actuary by the pension fund and the fund assets valuation in the pension fund financial statements

### **Other matters**

### Other work

In addition to our responsibilities under the Code of Practice, we have a number of other audit responsibilities, as follows:

- We read your Narrative Report and Annual Governance Statement to check that they are consistent with the financial statements on which we give an opinion and our knowledge of the Council.
- We carry out work to satisfy ourselves that disclosures made in your Annual Governance Statement are in line with requirements set by CIPFA.
- We carry out work on your consolidation schedules for the Whole of Government Accounts process in accordance with NAO group audit instructions.
- We consider our other duties under legislation and the Code, as and when required, including:
  - giving electors the opportunity to raise questions about your 2022/23 financial statements, consider and decide upon any objections received in relation to the 2022/23 financial statements:
  - issuing a report in the public interest or written recommendations to the Council under section 24 of the Local Audit and Accountability Act 2014 (the Act).
  - application to the court for a declaration that an item of account is contrary to law under section 28 or a judicial review under section 31 of the Act
  - issuing an advisory notice under section 29 of the Act
- We certify completion of our audit.

### Other material balances and transactions

Under International Standards on Auditing, 'irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance and disclosure'. All other material balances and transaction streams will therefore be audited. However, the procedures will not be as extensive as the procedures adopted for the risks identified in this report.

# Our approach to materiality

The concept of materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law.

### Matter Description

#### Determination

We have determined financial statement materiality based on a proportion of the gross expenditure of the Council for the prior financial year. Materiality at the planning stage of our audit is £798k, which equates to 2% of your gross expenditure for the prior period.

### Planned audit procedures

We determine planning materiality in order to:

- establish what level of misstatement could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements
- assist in establishing the scope of our audit engagement and audit tests
- determine sample sizes and
- assist in evaluating the effect of known and likely misstatements in the financial statements

### 2 Reassessment of materiality

Our assessment of materiality is kept under review throughout the audit process.

We reconsider planning materiality if, during the course of our audit engagement, we become aware of facts and circumstances that would have caused us to make a different determination of planning materiality.

### Other communications relating to materiality we will report to the Audit and Governance Committee

Whilst our audit procedures are designed to identify misstatements which are material to our opinion on the financial statements as a whole, we nevertheless report to the Audit and Governance Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. Under ISA 260 (UK) 'Communication with those charged with governance', we are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. ISA 260 (UK) defines 'clearly trivial' as matters that are clearly inconsequential, whether taken individually or in aggregate and whether judged by any quantitative or qualitative criteria.

We report to the Audit and Governance Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work.

In the context of the Council, we propose that an individual difference could normally be considered to be clearly trivial if it is less than £40k (PY £41k). If management have corrected material misstatements identified during the course of the audit, we will consider whether those corrections should be communicated to the Audit and Governance Committee to assist it in fulfilling its governance responsibilities.

# IT audit strategy

In accordance with ISA (UK) 315 Revised, we are required to obtain an understanding of the relevant IT and technical infrastructure and details of the processes that operate within the IT environment. We are also required to consider the information captured to identify any audit relevant risks and design appropriate audit procedures in response. As part of this we obtain an understanding of the controls operating over relevant Information Technology (IT) systems i.e., IT general controls (ITGCs). Our audit will include completing an assessment of the design and implementation of relevant ITGCs. We say more about ISA 315 Revised on slide 21.

The following IT systems have been judged to be in scope for our audit and based on the planned financial statement audit approach we will perform the indicated level of assessment:

IT system	Audit area	Spend/Income	Planned level IT audit assessment
Civica	Financial reporting	£43,678k	Detailed ITGC assessment (design effectiveness only)
Northgate	Council Tax, Business Rates, Benefits	£11,810k	Detailed ITGC assessment (design effectiveness only)
iChris	Payroll	£11,130k	Detailed ITGC assessment (design effectiveness only)

# Value for Money arrangements

### Approach to Value for Money work for the period ended 31 March 2023

The National Audit Office-issued its latest Value for Money guidance-to auditors in January 2023. The Code expects auditors to consider whether a body has put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources. Auditors are expected to report any significant weaknesses in the body's arrangements, should they come to their attention. In undertaking their work, auditors are expected to have regard to three specified reporting criteria. These are as set out below:

### Improving economy, efficiency and effectiveness

How the body uses information about its costs and performance to improve the way it manages and delivers its services.

### Financial Sustainability

How the body plans and manages its resources to ensure it can continue to deliver its services.

#### Governance

How the body ensures that it makes informed decisions and properly manages its risks.

Our risk assessment regarding your arrangements to secure value for money in 2022-23 is yet to be completed as we have not yet completed our Auditor's Annual Report (AAR) for 2021-22. Following publication of the 2021-22 AAR, we will complete our 2022-23 risk assessment.

## **Audit logistics and team**

Plans and manages the delivery of the audit including regular contact with senior officers.

Adams Azubilla, Audit In-charge

Key audit contact responsible for the day-to-day management and delivery of the audit work

### **Audited Entity responsibilities**

Where audited bodies do not deliver to the timetable agreed, we need to ensure that this does not impact on audit quality or absorb a disproportionate amount of time, thereby disadvantaging other audited bodies. Where the elapsed time to complete an audit exceeds that agreed due to an entity not meeting its obligations we will not be able to maintain a team on site. Similarly, where additional resources are needed to complete the audit due to an entity not meeting their obligations we are not able to guarantee the delivery of the audit to the agreed timescales. In addition, delayed audits will incur additional audit fees.

### Our requirements

To minimise the risk of a delayed audit, you need to:

- ensure that you produce draft financial statements of good quality by the deadline you have agreed with us, including all notes, the Annual Report and the Annual Governance Statement
- ensure that good quality working papers are available at the start of the audit, in accordance with the working paper requirements schedule that we have shared with you
- ensure that the agreed data reports are available to us at the start of the audit and are reconciled to the values in the accounts, in order to facilitate our selection of samples for testing
- ensure that all appropriate staff are available on site throughout (or as otherwise agreed) the planned period of the audit
- · respond promptly and adequately to audit queries.

# Audit fees and updated Auditing Standards including ISA 315 Revised

In 2017, PSAA awarded a contract of audit for Tewkesbury Borough Council to begin with effect from 2018/19. The fee agreed in the contract was £34,589. Since that time, there have been a number of developments, particularly in relation to the revised Code and ISA's which are relevant for the 2022/23 audit. For details of the changes which impacted on years up to 2021/22 please see our prior year Audit Plans.

The major change impacting on our audit for 2022/23 is the introduction of ISA (UK) 315 (Revised) - Identifying and assessing the risks of material misstatement ('ISA 315'). There are a number of significant changes that will impact the nature and extent of our risk assessment procedures and the work we perform to respond to these identified risks. Key changes include:

- Enhanced requirements around understanding the Council's IT Infrastructure, IT environment. From this we will then identify any risks arising from the use of IT. We are then required to identify the IT General Controls ('ITGCs') that address those risks and test the design and implementation of ITGCs that address the risks arising from the use of IT.
- Additional documentation of our understanding of the Council's business model, which may result in us needing to perform additional inquiries to
  understand the Council's end-to-end processes over more classes of transactions, balances and disclosures.
- We are required to identify controls within a business process and identify which of those controls are controls relevant to the audit. These include, but are not limited to, controls over significant risks and journal entries. We will need to identify the risks arising from the use of IT and the general IT controls (ITGCs) as part of obtaining an understanding of relevant controls.
- Where we do not test the operating effectiveness of controls, the assessment of risk will be the inherent risk, this means that our sample sizes may be larger than in previous years.

These are significant changes which will require us to increase the scope, nature and extent of our audit documentation, particularly in respect of your business processes, and your IT controls. We will be unable to determine the full fee impact until we have undertaken further work in respect of the above areas. However, for an authority of your size, we estimate an initial increase of £3,000. We will let you know if our work in respect of business processes and IT controls identifies any issues requiring further audit testing. There is likely to be an ongoing requirement for a fee increase in future years, although we are unable yet to quantify that.

The other major change to Auditing Standards in 2022/23 is in respect of ISA 240 which deals with the auditor's responsibilities relating to fraud in an audit of financial statements. This Standard gives more prominence to the risk of fraud in the audit planning process. We will let you know during the course of the audit should we be required to undertake any additional work in this area which will impact on your fee.

Taking into account the above, our proposed work and fee for 2022/23, as set out below, is detailed overleaf [and has been agreed with the Executive Director of Resources].

### **Audit fees**

	Actual Fee 2020/21	Actual (or estimated) Fee 2021/22	Proposed fee 2022/23
Tewkesbury Borough Council Audit	£59,089	£64,065	£62,815
Total audit fees (excluding VAT)	£59,089	£64,065	£62,815

### **Assumptions**

In setting the above fees, we have assumed that the Council will:

- prepare a good quality set of accounts, supported by comprehensive and well-presented working papers which are ready at the start of the audit
- provide appropriate analysis, support and evidence to support all critical judgements and significant judgements made during the course of preparing the financial statements
- provide early notice of proposed complex or unusual transactions which could have a material impact on the financial statements.

### Relevant professional standards

In preparing our fee estimate, we have had regard to all relevant professional standards, including paragraphs 4.1 and 4.2 of the FRC's <a href="Ethical Standard (revised 2019"><u>Standard (revised 2019</u></a>) which stipulate that the Engagement Lead (Key Audit Partner) must set a fee sufficient to enable the resourcing of the audit with partners and staff with appropriate time and skill to deliver an audit to the required professional and Ethical standards.

# Audit fees - detailed analysis

Revised 2022-23 scale fee published by PSAA – December 2022	£41,465
Additional work on Value for Money (VfM) under new NAO Code	£9,000
Increased audit requirements of revised ISAs 540 / 240 / 700	£2,100
Enhanced audit procedures on journals testing (not included in the Scale Fee)	£3,000
Additional procedures to address other local risk factors	£3,000
Enhanced audit procedures for Payroll – Change of circumstances	£500
Enhanced audit procedures for Collection Fund- reliefs testing	£750
Increased audit requirements of revised ISAs 315/240	£3,000
Total proposed audit fees 2022/23 (excluding VAT)	£62,815

### Independence and non-audit services

### Auditor independence

Ethical Standards and ISA (UK) 260 require us to give you timely disclosure of all significant facts and matters that may bear upon the integrity, objectivity and independence of the firm or covered persons, relating to our independence. We encourage you to contact us to discuss these or any other independence issues with us. We will also discuss with you if we make additional significant judgements surrounding independence matters.

In this context, we disclose that:

Julie Masci, the Key Audit Partner, is currently serving their 7th year on the engagement. It is PSAA's policy that Key Audit Partners at an audited body at which a full Code audit is required should act for an initial period of five years.

Under FRC Ethical Standard 3.15, for a public interest or listed entity, in circumstances where a degree of flexibility over the timing of rotation is necessary to safeguard the quality of the engagement and the firm agrees, the engagement partner may continue in this position for an additional period of up to two years, so that no longer than seven years in total is spent in the position of engagement partner. Tewkesbury Borough Council is not a public interest entity, however in accordance with PSAA's terms of appointment, we have sought and obtained approval from PSAA for this extension.

As this is the last year of our engagement with the Council, there is no planned rotation. We have mitigated the familiarity threat by appointing a safeguarding partner, who will be responsible reviewing the key judgements of the Key Audit Partner, to ensure that these are not influenced by the familiarity.

We confirm that we have implemented policies and procedures to meet the requirements of the Financial Reporting Council's Ethical Standard and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements.

Further, we have complied with the requirements of the National Audit Office's Auditor Guidance Note 01 issued in May 2020 which sets out supplementary guidance on ethical requirements for auditors of local public bodies.

#### Other services

The following other services provided by Grant Thornton were identified. The amounts detailed are fees agreed to-date for audit related and non-audit services to be undertaken by Grant Thornton UK LLP in the current financial year. These services are consistent with the Council's policy on the allotment of non-audit work to your auditors. Any changes and full details of all fees charged for audit related and non-audit related services by Grant Thornton UK LLP and by Grant Thornton International Limited network member Firms will be included in our Audit Findings report at the conclusion of the audit.

None of the services provided are subject to contingent fees.

Service	Fees £	Threats	Safeguards
Audit related			
Certification of housing benefit grant	35,000	Self-Interest (because this is a recurring fee)	The level of this recurring fee taken on its own is not considered a significant threat to independence as the fee for this work is £35,000 in comparison to the total fee for the audit of £62,815, and in particular relative to Grant Thornton UK LLP's turnover overall. Further, it is a fixed fee and there is no contingent element to it. These factors all mitigate the perceived self-interest threat to an acceptable level.

# Communication of audit matters with those charged with governance

Our communication plan	Audit Plan	Audit Findings
Respective responsibilities of auditor and management/those charged with governance	•	
Overview of the planned scope and timing of the audit, form, timing and expected general content of communications including significant risks and Key Audit Matters	•	
Confirmation of independence and objectivity of the firm, the engagement team members and all other indirectly covered persons	•	•
A statement that we have complied with relevant ethical requirements regarding independence. Relationships and other matters which might be thought to bear on independence. Details of non-audit work performed by Grant Thornton UK LLP and network firms, together with fees charged. Details of safeguards applied to threats to independence	•	•
Significant matters in relation to going concern	•	•
Significant findings from the audit		•
Significant matters and issue arising during the audit and written representations that have been sought		•
Significant difficulties encountered during the audit		•
Significant deficiencies in internal control identified during the audit		•
Significant matters arising in connection with related parties		•
Identification or suspicion of fraud(deliberate manipulation) involving management and/or which results in material misstatement of the financial statements (not typically council tax fraud)		•
Non-compliance with laws and regulations		•
Unadjusted misstatements and material disclosure omissions		•
Expected modifications to the auditor's report, or emphasis of matter		•

ISA (UK) 260, as well as other ISAs (UK), prescribe matters which we are required to communicate with those charged with governance, and which we set out in the table here.

This document, the Audit Plan,

outlines our audit strategy and plan
to deliver the audit, while the Audit
Findings will be issued prior to
approval of the financial statements
and will present key issues, findings
and other matters arising from the
audit, together with an explanation
as to how these have been resolved.

We will communicate any adverse or

unexpected findings affecting the
audit on a timely basis, either
informally or via an audit progress
memorandum.

### Respective responsibilities

As auditor we are responsible for performing the audit in accordance — with ISAs (UK), which is directed towards forming and expressing an opinion on the financial statements — that have been prepared by management with the oversight of those charged with governance.

The audit of the financial statements does not relieve management or those charged with governance of their responsibilities.
